LUÍS  
SIQUEIRA

### **LUIS SIQUEIRA**

Born in Rio de Janeiro, with a Brazilian soul and a heart from Bahia. This is how Luis Augusto Gomes Siqueira, one of Sian Andrade Mendonça's partners, defines himself. Siqueira, as he is known in the national construction market, worked for large companies in the south of the country until he moved to Bahia, where he has worked at Andrade Mendonça since 1987. Throughout his more than 30 years in the company, he has become a record holder in square meters built in the most diverse and challenging segments of civil construction. His professional path, always guided by ethics and excellence in engineering and efficiency in construction, has earned him numerous awards, and he has become a reference in the sector.

### **ANDRÉ PORTELA**

André Portela, partner of Sian Andrade Mendonça, was born in Salvador and has the essence and nature of Bahia. He received a degree in Civil Engineering from the Federal University of Bahia in 1998, and a post-graduate degree from Harvard in the United States, in 2011. He has traveled the world, acting professionally in the United States, Arab countries, and Africa, and has completed several contracts from north to south of Brazil. With a strong background in business development, he had the opportunity to carry out multidisciplinary undertakings in the infrastructure, hospitality and residential engineering fields. Adaptability and customer satisfaction are his greatest assets, highly influenced by learning from the distinct cultures acquired in the many countries he has worked in.
